

# Surf's Up Wave wall decal

**Wave Specifications:**  
78" high x 87" wide

This special instruction sheet is a supplement to the general application instructions sheet, also included in this order. Please review this document for general application guidelines. The Surf's Up Wave decal comes in pieces for easier application. Use the numbered sheet diagram below to identify decal pieces with the wall diagram/installation instructions on the back.

## Step 1: Preparation

### This is what you get:

**BONUS! Palm Trees:** These are extras in that you can add to your room to complement your new wave decal, or to have an extra in a different color so you can play with color and shadow.

### How far up do you want your wave?

#### Bottom Out - Good choice if

– you also bought The Palm Trees and you want to make an entire wall scene and most of the wall is visible. To bottom out, start placing your decals approximately 16" up from the floor, starting with piece 1A.

#### Centered Vertically - Good choice if

– you have furniture that will be in front of the wave. To center vertically on wall, start placing your decals approximately 21" up from the floor, starting with piece 1A.

## Step 2: Placement

**Use in conjunction with general instructions for application tips.**

Remember: To place a decal, you must follow the general instruction sheet for removing the squeegeeing the decal, removing the backing and the top sheet.

**1**

### Place main wave elements 1a,b,c,d.

Use wall edge to line up with. There will be another piece that goes on over these at the bottom, so remember to leave room for them if needed. If covered up, you can opt not to use pcs 1d & 2a.

**2**

### Place darkest elements (2a,b).

Line up matching edges with those of the main wave. Some parts of the decals may overlap.

**3**

### Place element (3).

Some parts of the decals may overlap. **Add white wave top and spray elements**

**4**

### Place wave top and spray elements (4a,b)

wherever you think a little spray will look good.
